

"Factory Reset"

*In your eyes
a burning flame
leaves me
breathless...*

*... and i
want you here*

*You're just a dream
a distant thought
a memory
inside me*

*I'll stop the time
for you
if that's what I
should do*

*Love me
reach out to me
let me inside you
set me free*

*Running wild
you and i
time means nothing more
to me
tonight*
